Matthew.Servini@finlays.net

FIRMENICH

HONEY NATUROME EXTR 959969

Created from an advanced volatile recovery method, Honey Naturome is innovative and technically cutting-edge. It is perfectly suited to meet both natural trends, and the growing needs of the food industry.

MALT NATUROME EXTR 951402

Softly captured, the volatiles of malt are recovered and structured to perfection with subtle caramel, fermented, sweet and animalic tonalities IRALIA® displays a beautiful floral, orris, powdery and violet note which perfectly suits raspberry and red fruit flavors. It also performs well in tea and others fruit flavors.

cbelougne@frutarom.com

Peter Panitz presenting Döhler elderflower products

HORNER INTERNATIONAL

Wild Cherry Bark Extract

Woody, spicy, exotic, tannic, bitter. Gives the impression of an aged alcoholic beverage.

Espresso Distillation

Top note of fresh Espresso, smoky, rich and roasted.

South American Cocoa Nib Extract

Dark chocolate, roasted with good body and mouthfeel.

Contact: Lisa Ramraj
lisa.ramraj@hornerintl.com

IFF-LMR NATURALS

**Ocimene Beta
Madagascar
Ref: 151012**

Fruity taste of tropical fruits and rhubarb. Metallic and slightly green with a red berries and seed nuance.

**Geranium Oil
China, Rectified.
Ref: 70627**

Subtle floral rose taste with a citrus and green leafy aspect.

**Juniperberry Oil
Balkans
Ref: 100063**

Smooth herbal and metallic fruity taste with a woody and terpenic background.

Contact: Christine Mortimer
christine.mortimer@iff.com

LLUCH ESSENCE

**Coffee Beans
Roasted V.O.**

Vegetable oil obtained through cold pressed extraction from Brazilian roasted coffee beans.

Davana Oil

Very interesting herbal fruity notes reminiscent of plumb and apricot. A facet of whisky and Cognac is also noticeable.

Dairy Lactone

In small concentration it brings creaminess to dairy formulations. Useful in butter, cream, milk, peach, cherry and strawberry.

Contact: Beatriz De Olano
beatriz.deolano@llucho.com

MIRITZ CITRUS INGREDIENTS

Lime CP 5x

Full bodied, rounded, sweeter, less fresh - more like the whole fruit.

**Lime CP Terpeneless
FC Free**

Very juicy, smooth and versatile product.

**Lime CP Persian HC
Free**

Fresh green lemon type profile. Suitable for both flavours and fragrances.

Contact: Tony Batcup
puctab@yahoo.com

O'LAUGHLIN CORPORATION

**Natural Green Tea
Concentrated Essence**

Nutty, sulfury, meaty, hay-like, herbal.

**Natural Black Tea
Concentrated Essence**

Floral, sweet, fruity, fermented.

Contact: Alexia Giolivo
agiolivo@payanbertrand.com

RENESENZ

Spearmint Booster

A complex reaction mixture of carvone and its derivatives that exhibit the characteristic of fresh spearmint odour and delivers complex evolving notes.
FSSC 22000 Certified

WS-5

It is virtually odour free and offers greater cooling strength than other traditional materials.
FSSC 22000 Certified

Carvacrol

A woody, spicy aroma chemical with potential antioxidant and antibacterial properties.
FSSC 22000 Certified

Contact: Debby Chan
debby.chan@renessenz.com

RIVERSIDE AROMATICS

Methyl 3-methylthiopropionate Natural

Sweet, blueberry and pineapple at 0.01%. At 0.1% ripe tropical.

Pyrazineethanethiol

Meaty, pork, reminiscent of crispy pork skin ("crackling")

2-Methyltetrahydrofuran -3-thiol

Powerful savoury, meaty with onion allium notes "A meal on a strip".

Contact: David Rowe
david.rowe@riversidearomatics.com

ROBERTET

Cucumber Pure Extract RS0003	Characteristic, fruity, fresh green. Natural profile of fresh cucumber
Orange Zest Colourless MS Oil RS0061	Fruity, aldehydic, ripe, pesticide free. Colourless very natural profile.
Orange MS Heart Zest. R90188	Juicy, fruity, fruit skin, high impact, rich and long lasting.

Contact: Anne Le Letty
Anne.LeLetty@robertet.com

SYMRISE

Acetyl thiazoline-2 105948	Roasted note reminiscent of popcorn and basmati rice. It has a strong impact which translates into application.
Propionyl thiazoline - 2,2. 10% 600051	Roasted note with a rice popcorn character and sweet nutty connotations. Also hints of basmati rice. Translates its riceness and body into applications.
Triisobutyl dihydrodithiazine 600082	Typical crispy bacon roasted ingredient. Reminiscent of fried eggs with some sulphurous hints. Works strongly on the body notes.

Contact: Silke Hilmer
silke.hilmer@symrise.com

SIGMA ALDRICH

10-Undecen-1-ol, >=98%, FG, Stabilised. Catalogue No: W562125	@1.0% in ethanol: Musty green, earthy with waxy aldehydic cilantro-like citrus nuance.
2,5-Dimethyl-4- Methoxy-3(2H)- Furanone, >=98%, FG, Natural. Catalogue No: W366412	@1.0% in ethanol: Musty, sweet, brown, bruised strawberry, jammy assorted berries, slight brown sugar and maple-like with caramellic nutty nuances.
Methyl Thiobutyrate, 98%, FG, Natural. Catalogue No: W331015	@1.0% in ethanol: Sulphurous, mouldy blue and Limburger cheese-like with a spoiled mouldy potato skin nuance and a hint of an over-ripe fruity berry, slightly fermented, top note.

Contact: Julie Leaderbrand
julie.leaderbrand@sial.com

TREATT
